Stallion Laboratories incorporated in 1988 as an integrated private sector Pharmaceutical Formulation Manufacturer, has acquired an unmatched record of managing niche product in formulations with a **WHO GMP** approved production facility and GLP qualified stringent quality control. The path of success lies in its belief of creativity and no negotiation with the quality of work. Stallion Laboratories is coming up with Unit II which is proposed to be **UK-MHRA, EU GMP & PICS** approved plant. With its approval, Stallion aims to enter regulated markets.
